## SANE APPROVED MATERIAL LIST

VERSION 2 | RELEASE DATE: 16 MAY 2022

SANE REQUIREMENT 1.1 USE OF APPROVED MATERIAL: "To be certified, a minimum of 90% of the total weight of a product, including accessories, must be made of Approved Material."

The SANE Approved Material List has been elaborated by sustainability experts throughout 5 years of research on the measured environmental impact of fibers and materials most commonly used in the fashion industry. It takes into account prevailing benchmarks<sup>1</sup> and scientific studies<sup>2</sup>, industry recognition, availability, and scalability of each material as well as credible certifications and laboratory testing when relevant.

Our SANE Approved Material List is designed to evolve together with the market sustainability standards and to be submitted to multi-stakeholders periodic reviews. New or other fibers can be submitted to be included in the list.
